

I have not assigned any letter grades yet, because it is too early – you have two more exams to take, plus the quizzes. Besides, the least score on the three midterm exams will not count. However, if your score on this exam is below 60 *and* that on the first exam is below 40, you should probably start worrying about your final grade. Below are some additional statistics of the cumulative distribution of your scores on this exam.

<b>Selected percent points</b>	<b>Score</b>
Better than 85% of the class	>93
Better than 60%	>80
Better than 30%	>66
